

## Map & Gap Supply Chain Karratha - Final Report Released

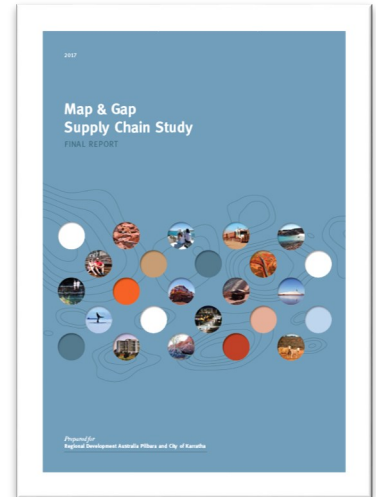

Regional Development Australia (RDA) Pilbara and the City of Karratha have worked in partnership to produce the Map and Gap Supply Chain Study.

The study within the local government area of City of Karratha investigated opportunities and target gaps in the local business market and leverage supply chain opportunities for local businesses.

Fourteen key findings were identified and strategies have been provided in this study.

Please see the attached link to download a copy of the final Map and Gap Supply Chain Study. [www.rdapilbara.org.au](http://www.rdapilbara.org.au)

For more information please contact Diane Pentz, CEO of RDA Pilbara on 0427 191 272 or [ceo@rdapilbara.org.au](mailto:ceo@rdapilbara.org.au).

## Introducing Local Voices - CSIRO

As a resident of Paraburdoo, Tom Price, Pannawonica, Karratha, Wickham, Roebourne and surrounding districts, you may have views about Rio Tinto's operations and activities in the Pilbara.

Rio Tinto has engaged CSIRO, to provide communities neighbouring Rio Tinto's Pilbara iron ore operations a direct voice inside the company via the Local Voices project. The project involves the collection of data through community surveys, and sophisticated data analysis that translates the survey data into a language that Rio Tinto can engage with and respond to.

This is your invitation to participate. CSIRO are seeking involvement from as many community members as possible. Through Local Voices, Rio Tinto has committed to respond and speak to the issues that are of most concern to the community.

For further information, and to register please go to [Local Voices](http://LocalVoices) website.

## North West Aged Care Strategy

The nearly completed North West Aged Care Strategy is a result of a joint partnership between RDA Pilbara and RDA Kimberley.

This report will provide:

- Map and gap analysis of aging and aged care services and facilities in the two regions;
- Explore models of aged care provision that will attract and retain aging people across the regions;
- Challenge the assumption that Pilbara and Kimberley are not retirement destinations;
- Focus on providing opportunities for Aboriginal people to age on country; and
- Develop a plan that identifies guiding principles, realist goals and strategic outcomes with specific actions, timeframes and responsibilities.

Final report is due to be released in early October 2017. For further information please contact Diane Pentz, CEO on 0427 191 272 or [ceo@rdapilbara.org.au](mailto:ceo@rdapilbara.org.au).
