

RDA Pilbara supporting communities during COVID-19

RDA Pilbara is pleased to share the attached commendation from the Honourable Nola Marino MP, on the outstanding work in supporting the response to the COVID-19 pandemic.

Since late March, RDA representatives have attended regular teleconferences with the Assistant Minister for Regional Development and Territories which have provided first-hand insights into how local communities are coping, and the impact and effectiveness of Government response measures.

RDA Pilbara has campaigned to businesses the available assistance to help them manage the impacts of COVID-19 and recover and has also worked closely with the region's Chambers of Commerce and Industry. Information gathered has helped inform the Initial Impact Assessment of COVID-19 on the Pilbara Economy released in late May.
