

Pilbara Quarterly Economic Update Issue No 6—October 2020

Welcome to the sixth edition of RDA Pilbara's Quarterly Economic Update.

There is increasing exploration and investment in the gold, copper, fertiliser and salt industries in the Pilbara. Whilst iron ore will remain the dominant extraction resource, the contribution of these sectors to increased employment, business opportunities and a more diversified economy bodes well for the medium to long term strength of the Pilbara economy.

In the Pilbara, major resource companies have committed to employing locally.
