26th October 2017

## EARLY YEARS EXHIBITION SUCCESS

On the 24<sup>th</sup> of October RDA Pilbara delivered an Early Years Exhibition that was co funded with Woodside and supported by EPIC with the involvement of 27 organisations. The event was a remarkable success with numbers visiting the Exhibition exceeding 300 families and individuals and well over 1000 children.

The event was opened by RDA Pilbara Chairperson, Fiona White-Hartig. Adjunct Professor Caroline Fewster expanded our thinking in her key-note on “What makes early childhood settings wonderful places to be”, by embracing the idea of the physical environment as a significant educator.

RDA Pilbara would like to thank the stallholders and supporters for making this event the success it was.

To further celebrate Children's Week, Pilbara Early Years' service providers and Early Learning Centre educators were also treated to an evening workshop held at Millars Well Early Learning Centre.

Here, Caroline Fewster explored the role of the educator in the early childhood environment.

The workshop was well attended and participants found the experience and the learning enriching. Both the event and the workshop would not have been such a success without the extraordinary commitment behind the scenes by RDA Pilbara, One Tree services, EPIC and the financial support of our individual sponsors.
