Resource Kit for Early Years Networks

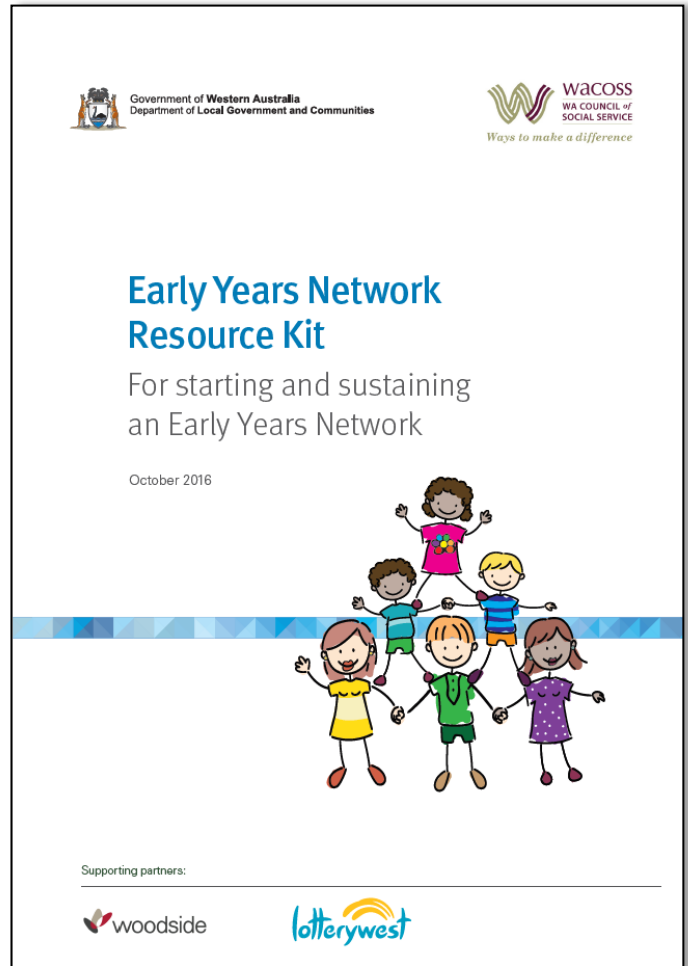

In 2011 the Department for Local Government and Communities (DLGC) developed a resource kit titled **Early Years Network Resource Kit for starting and sustaining an Early Years Network** to support networks across WA. DLGC partnered with WACOSS in 2016 to review and update the document.

The Kit contains a wide range of useful information about working in communities to support children and families and includes stories from the field, information sheets and other tools.

The material provided is based on the philosophy that *'the wisdom of the community always exceeds the knowledge of the experts.'*

An electronic version of the Kit can be accessed by [clicking here](#). Alternatively, WACOSS has made available two hard copies which can be viewed and borrowed through Regional Development Australia (RDA) Pilbara by calling (08) 9144 0651.

Questions or comments regarding the Resource Kit can be forwarded to the WACOSS Connecting Early Years Networks support team via eyn.dropin.org.au.

Toddler Drowning Prevention - FREE professional development workshop

WACHS Pilbara Population Health will host a Keep Watch Toddler Drowning Prevention workshop in Karratha next week, to be presented by the Royal Lifesaving Society. An invitation to attend the presentation is extended to professionals within the Pilbara that play a role in promoting child safety.

Date: Monday, 13th March 2017

Time: 1.30pm - 2.30pm

Venue: TBA

For more info or to register: Email jessica.smith@health.wa.gov.au or call 9143 2259 ASAP
